From Nebraska.

LEAVENWORTH, May 10 .- The people of Southern Nebraska are exmedly egitating the annexation of so much of that Territory, which lies south of the Platte River, to Kansas, and thus secure admission into the Union at the next session of Congress. The public senti-ment in that portion of the Territory is strongly in favor of the proposed annexation, and it was recently resolved, at a mass convention, beld at Nebraska City, to nominate delegates to the Kansas Constitutional Convention, which assembles at Wyandotte in July. The Nebraska delegation will undoubtedly be admitted to the convention, and it is realistic to the convention, and it is realistic. to the convention, and it is probable that in de-fining the boundary of the State of Kansas the Platte will be designated as the northern line. She thus violates our treaties and menaces our frontiers. All the great powers have protested against this act of aggression. Piedmont having accepted the condi-tions, one asks, what can be the reason of this sudden invasion? It is because Austria has driven matters to such an extremity that her dominions must extend to the Alps, or Italy must be free to the shores of the Adriatic, for every corner of Italy which remains independent endangers the power of America. Hitherto moderation has been the rule of my conduct, but now energy becomes my first duty. France must now to arms and resolutely tell Europe, I wish not for conquest, but I am determined fully to maintain my national and traditional policy. I violated against me. I respect the right of I respect the right of territories and the right of neutral powers, but I boldly avow my sympathies with a people whose history is mingled with my own and who now groan under foreign oppression.
